

We look forward to growing American Creative Solutions, LLC into an industry leader focused on customer service, quality, and lead time expectations.

American Creative Solutions, LLC Now Affiliated with Eagle Group

Larry N. McAllister, President of the Eagle Group, announced that American Creative Solutions, Inc. of Savannah, Tennessee is now an affiliated company of the Eagle Group. The new name will be American Creative Solutions, LLC – a Delaware Limited Liability Corporation. This newly formed corporation's primary goal is to strengthen marketing and sales initiatives with chain accounts, consultants, and the distribution community that supports both. Mr. Jeff Sparks, President of American Creative Solutions, Inc. will remain as Vice President and General Manager of the newly formed LLC, along with his present management staff. The present contacts will remain the same as before this transition, with additional daily support coming from internal Eagle Group personnel.

American Creative Solutions, LLC manufactures front of the house cabinetry, kiosks, carts, serving counters, custom refrigerated counters, trash containers, inclusive of custom wood, millwork, laminate, composite tops, and stainless steel fabrication. Their products meet or exceed those of present specifications for both the chain and consultant industry, and are of high quality and competitively priced. Install, set-in-place, and project management services are available upon request. Mr. Mark Brenner, Eagle Group Vice President of Sales and Mr. Glenn Dorris, Eagle Vice President of Regional Sales, along with Eagle Group's independent rep organizations, will assist additional marketing and sales efforts by requesting specifications for the above products for quotation.

The Eagle Group feels that this additional capability, in conjunction with Eagle's broad product line and its custom fabrication, will become a valued asset to the industry as renovations to front of the house operations become the focus of the industry. This new LLC was formed to allow reduced administrative costs and increased value added services for the distribution channels in the foodservice equipment industry.
